

Healthy Solutions

As the preferred supplier of compounding services to several seniors' communities, when we say we have the prescription drug solution for unique challenges faced by seniors, we mean it. Sandstone Pharmacies is always happy to meet new clients and looks forward to working with you to discover the user-friendliest approach to treatment for your resident's needs.

We specialize in the creation and delivery of a variety of compounding solutions for those that have:

- Difficulties swallowing pills and prefer chewables or liquids
- Sensitivities or allergies to ingredients commonly found in commercial drugs
- Reliance on the benefits offered by a discontinued drug and need it manufactured
- Combined medication needs for more convenient consumption

Sandstone Pharmacies has the ability to manufacture most medications and deliver them in a way that will allow seniors to enjoy the benefits without dealing with the pain, discomfort or frustration that can come from traditional consumption methods.

Sandstone Pharmacies has the in-house experience and expertise to formulate prescription drugs in a variety of forms for seniors. I pride myself on being available to all those who require my services and sincerely appreciate your feedback and support.

NAS PIRBHAI

COMPOUNDING PHARMACIST - SANDSTONE PHARMACIES

As members of Professional Compounding Centres of America (PCCA), Sandstone Pharmacies has access to more formulas and more support, allowing us to better serve seniors as individuals or as residents within a larger community.

Sandstone Pharmacies' Glenmore Landing and Blackfalds locations are licensed by the Alberta College of Pharmacists as Compounding Pharmacies. Our compounding pharmacist Nas Pirbhai is a leader within the industry in Southern Alberta and is committed to serving communities by continuing to expand the products and services we offer. If you have a compounding need, we have the solution.

We make it easy!

Sandstone Pharmacies is the trusted provider for thousands of organizations and individuals in Western Canada who rely on us for both daily and one-off health solutions.

Please call us directly at 403.255.4200 to discuss how to get Sandstone Pharmacies working for you!
