

Compounding

Glenmore Landing Compounding is located in the Glenmore Landing Complex at 1600 90 Ave SE.

We specialize in compounding patient or pet specific medications. Through compounding we are able to provide customized solutions for specific patient needs. Many people are not well served by mass produced medications.

Compounding is a great option for people who:

- **Are unable to swallow pills**
- **Have allergies to common mass produced medicine fillers**
- **Are not taking their medication due to unpleasant side effects or lack of efficacy**
- **Are in need of custom medication strengths or dosage forms**
- **Are in need of a medication that is in short supply from drug manufacturers**

We are unique and different from many other pharmacies as we provide a level of customer service that is unmatched. Not only does our staff have specialized training in aseptic and non-sterile pharmaceutical compounding, we also care about our patients and prescribers and their health goals. We have the knowledge and capabilities to work with patients and their physicians to create personalized medicine that can make a difference in achieving health goals.

We specialize in the following categories of compounds:

- Pain Management
- Hormone Replacement Therapy
- Dermatological Medications
- Podiatry Medications
- Palliative Care
- Wound Care
- Veterinary Medications

We can customize:

- Suppositories
- Nasal Sprays
- Creams, Lotions, Ointments & Gels
- Eye & Ear Drops
- Urology Products
- Preservative Free Medications
- Child Friendly Dosing
- Discontinued Products
